

# Product Development Uses Strengths

The Daiken Group cultivated its technologies throughout our seventy-year history and continues to offer products that are valuable for society and customers.

Our diverse product lineup, with its excellent features, is used in a wide range of scenarios in houses and public and commercial facilities.

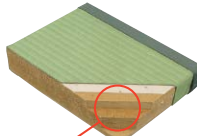

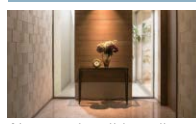

## Industrial Materials Business

[Daiken's strengths]

### Developing and offering highly functional industrial materials

The Daiken Group offers various functional industrial materials having non-combustibility, anti-seismic thermal insulation, sound insulation, humidity conditioning, and various other features required in our daily lives by making full use of wood and mineral resources from a sustainable perspective.

	Effective use of wood materials			Effective use of mineral materials	
Overview	<p><b>Insulation board</b></p> <p>Wooden fiberboard using none-used wooden waste for main raw material</p>  <p>Wood chips</p> 	<p><b>MDF</b></p> <p>Wooden fiberboard using cut-off materials from saw mills</p>  <p>Wood chips</p> 	<p><b>Tatami facing</b></p> <p>Tatami mat surface made from straw twisted Japanese "Washi" paper and resin coating</p>  <p>Machine-made Japanese Washi paper (strings)</p> 	<p><b>Dai-Lotone</b></p> <p>Mineral fiberboard using slug wool which is by product of steel production</p>  <p>Rock wool</p> 	<p><b>Dai-Lite</b></p> <p>An inorganic material molded into a board using an untapped resource, Shirasu (volcanic ash), and rock wool</p>  <p>Rock wool and Shirasu</p> 
Features and Functions	<ul style="list-style-type: none"> <li>● Heat insulation</li> <li>● Moisture conditioning</li> <li>● Cushioning properties</li> <li>● Lightweight</li> </ul>	<ul style="list-style-type: none"> <li>● Dimensional stability</li> <li>● Surface smoothness</li> <li>● Workability</li> <li>● Water resistance</li> </ul>	<ul style="list-style-type: none"> <li>● Water resistance</li> <li>● Water repellent</li> <li>● Moisture conditioning</li> <li>● Color variations</li> </ul>	<ul style="list-style-type: none"> <li>● Non-combustibility</li> <li>● Lightweight</li> <li>● Sound absorbing</li> <li>● Workability</li> <li>● Insect repellent</li> <li>● Antiseptic</li> </ul>	<ul style="list-style-type: none"> <li>● Non-combustibility</li> <li>● Lightweight</li> <li>● High strength</li> <li>● Dimensional stability</li> <li>● Workability</li> <li>● Surface smoothness</li> <li>● Moisture permeability</li> </ul>
Major applications	<p><b>Inner part of a tatami mat</b></p>  <p>Insulation board</p> <p><b>Protection board</b></p> 	<p><b>Materials for flooring</b></p>  <p>MDF</p> <p><b>Base materials for building and furniture</b> (Substrate of door, window, and window frame)</p>  <p>MDF</p>	<p><b>Tatami mats</b></p>  <p>For houses</p>  <p>For accommodation</p>	<p><b>Ceiling material</b></p>  <p>For houses</p>  <p>For office</p>	<p><b>Wall base material</b></p>  <p>Base material for house external walls</p> <p><b>Wall materials</b></p>  <p>Non-combustible wall material</p>

# Building Materials Business

[Daiken's strengths]

Capability to develop building materials with high added value and capability to propose total plans for interior spaces

## Developing and providing building materials best suited for the interior of various buildings

The Daiken Group offers high-performance building materials, that form spaces focusing on safety, peace of mind, health, and comfort to be used for housing, public spaces, and commercial facilities.

	For houses	For public spaces and commercial facilities
Flooring	<p><b>A flooring of ultimate beauty</b></p> <p>A complete line up with particularly sophisticated design, high functionality and performance, also having high quality surface texture, scratch resistance, and long-lasting beauty</p> 	<p><b>A floor that secures your steps</b></p> <p>A complete line up of light and heavy traffic flooring, including decorative natural wood with scratch resistance, and sound-proof and shock absorbing flooring</p> 
Door	<p><b>Great range of design and variations</b></p> <p>Interior door which is functionally and easy to use, and can be coordinated flexibly</p> 	<p><b>Feature of door fitting specific situation</b></p> <p>Interior doors with particular functionality for the nursing homes, kindergartens, childcare facilities, and stores</p> 
Cabinets	<p><b>Storage improvement</b></p> <p>A complete line up of cabinets equipped with abundant storage capacity, space-saving and other features to fit for individual spaces</p> 	<p><b>Cabinets inspired by consideration to users</b></p> <p>Cabinets mitigate the various risks to users for comfortable use</p> 
Sound products	<p><b>Space for enjoying sound</b></p> <p>A complete line up to meet the sound quality needs of a variety of venues, including home theaters, musical instrument practice rooms, and audio rooms</p> 	<p><b>Creating comfortable sound environment</b></p> <p>A complete line up suitable for sound-proofing and other specific purpose</p> 

Foundation of Value Creation

Vision and Strategy of Value Creation

ESG Information

Data

# Engineering Business

[Daiken's strengths]

Capabilities to perform installation work by making use of the functions of building materials

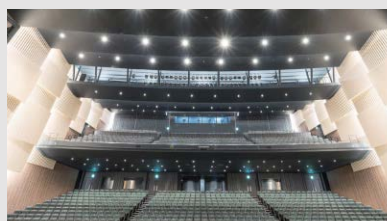

## Total support for the creation of spaces from supply of building materials through installation work

The Daiken Group's major projects are interior construction for public spaces and commercial facilities, including schools, event venues, office buildings, and apartment buildings, to create spaces that optimize the performance of industrial and building materials.
