

Product Development Uses Strengths

The Daiken Group cultivated its technologies throughout our seventy-year history and continues to offer products that are valuable for society and customers.

Our diverse product lineup, with its excellent features, is used in a wide range of scenarios in houses and public and commercial facilities.

Industrial Materials Business

Developing and offering highly functional industrial materials

The Daiken Group offers various functional industrial materials having non-combustibility, anti-seismic, thermal insulation, sound insulation, humidity conditioning, and various other features required in our daily lives by making full use of wood and mineral resources from a sustainable perspective.

	Effective use of wood materials			Effective use of mineral materials		
Overview	Insulation board Wooden fiberboard using none-used wooden waste for main raw material and molded into a board  Wood chips 	MDF Wooden fiberboard using cut-off materials from saw mills and molded into a board  Wood chips 	Tatami facing Tatami mat surface made from straw twisted Japanese Washi paper and resin coating  Machine-made Japanese Washi paper (strings) 	Dai-Lotone Mineral fiberboard using slug wool which is by product of steel production  Rock wool 	Dai-Lite An inorganic material molded into a board using an unused resource, Shirasu (volcanic ash), and rock wool  Rock wool and Shirasu 	
	Features and Functions	<ul style="list-style-type: none"> Heat insulation Moisture conditioning Cushioning properties Lightweight 	<ul style="list-style-type: none"> Dimensional stability Surface smoothness Workability Water resistance 	<ul style="list-style-type: none"> Water resistance Water repellent Moisture conditioning Color variations 	<ul style="list-style-type: none"> Non-combustibility Lightweight Sound absorbing Workability 	<ul style="list-style-type: none"> Non-combustibility Lightweight High strength Workability Moisture permeability Insect repellent Antiseptic
		Major applications	Inner part of a tatami mat  Insulation board	Materials for flooring  MDF	Tatami mats  For houses	Ceiling materials  For houses
Protection board  Protection board	Base materials for building and furniture (Substrate of door, storage, and window frame)  MDF		 For accommodation	 For office	Wall materials  Non-combustible wall materials	

Building Materials Business

Developing and providing building materials best suited for the interior of various buildings

The Daiken Group offers high-performance building materials, that form spaces focusing on safety, peace of mind, health, and comfort to be used for housing, public spaces, and commercial facilities.

	For houses	For public spaces and commercial facilities
Flooring	A flooring of ultimate beauty A lineup that is particular about surface texture, damage resistance, long-lasting beauty, design, high function, high performance, etc. 	A flooring for heavy duty areas A complete line of flooring that can be used in heavy duty areas, including those made of natural wood resistant to damage, sound-proofing materials, and those that reduce the impact when a person falls 
Door	Great range of design and variations Interior door which is highly functional and easy to use, and can be coordinated flexibly 	Functional door suitable for facility applications Interior doors with particular functionality for the nursing homes, kindergartens, childcare facilities, and stores 
Cabinet	Storage improvement A complete line up of cabinets equipped with abundant storage capacity, space-saving and other features to fit for individual spaces 	Cabinets inspired by consideration to users Cabinets mitigate the various risks to users for comfortable use 
Sound products	Space for enjoying sound A complete line up to meet the sound environment and sound quality needs of a variety of venues, including home theaters, musical instrument practice rooms, and audio rooms 	Creating comfortable sound environment A complete line up suitable for sound-proofing and other specific purpose 

Engineering Business

Total support for creation of spaces from supply of building materials through installation work

The Daiken Group's major projects are interior construction for public spaces and commercial facilities, including schools, event venues, office buildings, and apartment buildings, to create spaces that optimize the performance of industrial and building materials.
